Now you can have the MilitaryCAC.com logo on your iPhone or iPad

<https://MilitaryCAC.com>

Instructions are identical for both the iPhone and iPad  
(other than for which images to download)

From your iPhone or iPad web browser go to:

<http://militarycac.com/apple/>

Select the file you want to use.

(Examples can be seen on slide 7)

# Hold your finger on the image and select Save Image

Close your web browser

# Click Photos, Camera Roll. Select the MilitaryCAC image

# Click the little arrow, then *Use as Wallpaper*

Select *Set*. Now choose *Set Lock Screen*, *Set Home Screen*, or *Set Both*
